bExact.

Designed and manufactured in Australia, we are delighted to introduce you to ^bExact as the only chair that truly knows you!

So simple and quick to adjust, ^bExact responds to your size and shape with a perfect fit.

If your chair happens to be shared with a co-worker, then in a matter of moments it can be readjusted to suit them in the same way.

Think of how much more comfortable you will feel with a back that supports the contours of your own shape, and how energised you'll be at the end of each day by sitting in a chair that follows your every movement?

It is so precise in its level of personal recognition, that it's actually Exact...

...how exciting is that!

THE ONLY CHAIR TO SUIT

^bExact Prestige Ergo

Low / High / Extra High

Seat Customisation

Research shows that a poorly designed seat – including some with dual density foams – may have inferior pressure-distribution patterns and ultimately increase disc pressure in the lumbar and coccyx areas causing unhealthy long term effects.

Our unique range of pelvic and posture support seat technology now use an amazing gel and visco foam, providing 100% support as the seat draws heat away from the user, and softens / molds itself to the precise shape of the person in the chair.

Axis Perching Stool

The Axis Stool is designed for all Sit-Stand working environments.

- Offices
- Research Labs
- Industrial
- Hot desking and Unassigned Seating

Axis has been developed to ensure that you can maintain optimum posture whether sitting, standing or perching, and as such – is a perfect accompaniment to any standard task chair giving users a choice of two types of seat at their workstation.

Axis reacts to each subtle movement of the body and realigns itself wherever the user wishes to be.

Axis is ideal for any mode of working in the modern workplace, including tablets, laptops, fixed PC's, draft-height surfaces, reception areas and laboratories.

Axis is both light and portable, making it ideal for use in Agile working environments where users of varying heights and weight choose to operate in different locations.

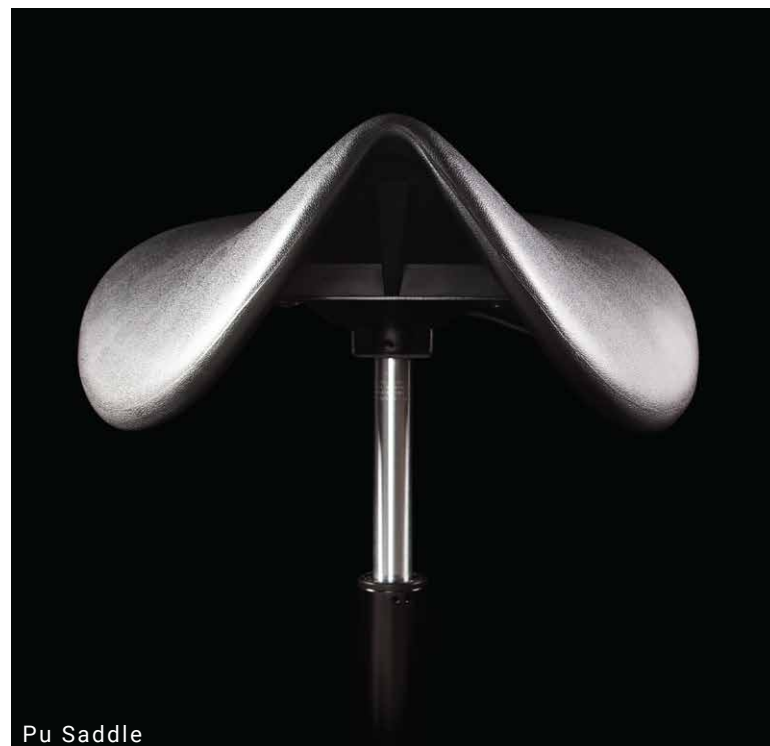

Saddle Stools

The PU Saddle Stool is widely suited for many different working environments ranging from auto mechanics, clean rooms, laboratories or hairdressing salons, to other areas where dust and grease are prevalent.

Designed and development in Australia, the Ergo Saddle is available in both a Standard and Slimline design and can be purchased with or without a Backrest.
